

Volunteers in Medicine
of Southern Nevada

Dear Advanced Practitioner of Nursing/ Physician Assistant,

Please find enclosed the credentialing application for healthcare professionals who would like to volunteer their services at the Volunteers in Medicine of Southern Nevada clinic.

VMSN is applying for medical malpractice coverage for all healthcare professionals who work in our clinic through the federal government. This coverage is provided by the Federal Tort Claims Act (FTCA) and is similar to coverage that you would receive at military treatment centers, federal clinics, and the VA system.

In order to secure FTCA coverage, VMSN requires that all professionals treating patients in the clinic have completed the attached application and been credentialed. For all healthcare professionals other than physicians this involves filling out the VMSN application and then having our credentialing specialist verify your licensure/certification and complete a National Practitioner Data Base search.

If you have malpractice coverage through your job or a private agency, you may be covered by that policy for volunteer work. The federal government recommends that all healthcare - professional volunteers, who have private liability insurance, obtain a letter specifically stating whether or not that professional volunteer has malpractice coverage at a free clinic. If you do, VMSN will credential you as above, but will not submit your name for the formal FTCA application process. VMSN will instead require a copy of the letter sent straight to us from your insurer.

VMSN is run primarily by volunteers, and our services are completely free for patients. Since opening to the public on January 22, 2010, we are literally improving and even saving the lives of Clark County residents who have fallen through the cracks of our healthcare system. I look forward to receiving your completed application and promise you that you will find working at VMSN a rich and rewarding experience.

Cordially,

Laura Culley, M.D.

Medical Director, VMSN
