

Our Vision

May we have the healing hands to touch underserved lives with love, and in the process heal ourselves.

Volunteers in Medicine is a group of concerned individuals, more than 300 volunteers and growing, who will provide free health care to the medically underserved. We plan to open the doors to the first clinic this holiday season.

We will be providing volunteer professional health care, diagnostic tests and medications.

Now we are raising funds for continuing medical care for those who are suffering, sick and dying in our community.

THE MOST IMPORTANT GIFT CATALOG IN SOUTHERN NEVADA

...IS THE
GREATEST GIFT
YOU WILL EVER RECEIVE OR GIVE:
THE GIFT OF HEALTH

VOLUNTEERS IN MEDICINE OF SOUTHERN NEVADA WISHES YOU HAPPY HOLIDAYS

YOU HAVE AN OPPORTUNITY
TO GIVE THE GIFT OF HEALTH
THIS HOLIDAY SEASON

YOUR FAMILY MEMBER OR YOUR FRIENDS
WILL RECEIVE A HOLIDAY GIFT CARD FROM YOU
DESCRIBING YOUR
GENEROUS CONTRIBUTION IN THEIR HONOR

Thanks to your gift a medically underserved sick person, adult or child, will receive medical care by volunteer, qualified health care providers.

In the world of poverty and poor health the gift of health care provides hope to the forgotten, unseen members of our community.

Nevada has 500,000 uninsured, and approximately 300,000 that are at two hundred percent or below poverty level. Many are working poor and cannot afford a few dollars for health care. In Nevada, our children have one of the highest rates of uninsured coverage. At VMSN they will be provided with a medical home.

We need your help. The VMSN Clinic will provide the following list of services, adult and pediatric primary care, preventative and acute care: prenatal care, newborn checkup and immunizations, pharmacy and social services.

As an example your gift would provide care for an asthmatic single working mother. She will receive free office visits and medication which will provide her with the gift of breath and life. She will be able to continue to work and to provide for her children. Your gift will provide newborn well checks and immunization to help them get a good start in life, provide a diabetic child with medical care and medication to keep them out of the emergency room and in school to pursue their dreams.

Give the gift of health because it makes a difference, often all the difference in the world in someone's life. Show them that their life matters and that someone cares. Give them a chance in life. Watch the community be transformed into a more productive and beautiful place to live.

That's why we believe that this is the most important gift catalog in Southern Nevada.
